

CLEANUP SOLVENT 22

Cleanup Solvent 22 is an adhesive remover that replaces chlorinated solvents. It dries quickly and does not need a rinse and leaves no residue. It's ideal for removing adhesives of all types and for cleaning carpets, removing chewing gum, tar, tree pitch and is safe on all surfaces. Removes black scuff marks from wood or vinyl floors and baseboards. Perfect for cleaning small spills or hard to remove adhesives. Also dissolves tar, grease, ink, gum, glue, oils, and much more!

Cleanup Solvent 22's great safety rating comes as a result of a proprietary blend that contains no chlorinated fluorocarbons. Most adhesive removers contain acetone or toluene. Here's a comparison table for your reference:

	Acetone	Toluene	CS-22
Flashpoint	-4 F°	40 F°	105 F°
NFPA Rating	1-3-0	2-3-0	1-2-0
Contains CFC's?	Yes	Yes	No
